KESIMPTA®▼ (ofatumumab) Sensoready Pen: self-injection video - healthcare professional instructions

KESIMPTA is indicated for the treatment of adult patients with relapsing forms of multiple sclerosis with active disease defined by clinical or imaging features.¹

For full safety information, please refer to the KESIMPTA Summary of Product Characteristics (SmPC).¹

KESIMPTA is intended for patient self-administration with initial guidance from a HCP.

Please refer to the KESIMPTA Summary of Product Characteristics for further information.¹

Watch this video to learn more about how to use KESIMPTA. This will help you teach your patients how to administer KESIMPTA with the Sensoready® pen after the initial dose.
